Special thanks to everyone who is supporting the vinyl record.

Coming off T. Nguyen's forthcoming vinyl LP, Meet Me Again brings a gripping 303 bassline with broad kicks that roll throughout the track. As the second single, the track is reminiscent of dance floors during the early acid days of the early nineties.

The track pushes the listener into a dingy basement party with multiple rooms, souls grasping to their biological inputs, all under the influence. A moment of clarity and openness arises at the end of the track as it slows down.

The single is accompanied by a radio edit that comes just shy of five minutes and a club mix that pushes the BPM to 135 for those who need a bit more drive.

We are teaming up with Diggers Factory in France to make a limited run of 200 pressings of the LP to be shipped this summer. To help support the LP, we are digitally releasing this single with two additional tracks, in the last week of April 2022 - (4/25/22).

T. Nguyen's Vinyl LP is community support and funded via Diggers Factory
